

Enjoy special rates for joining **GPS**! Choose an Earth Camp package and / or a White Water Rafting package. Availability is on a first come first serve basis so please book early to avoid disappointment.

**Earth Camp** has accommodation and facilities built largely from re-purposed materials. Our dormitories are made from greenhouses, our bathrooms created from cylindrical water tanks, and our furniture built from recycled parts of the old Summit Climbing Gym wall.

In constructing Earth Camp, we have paid close attention to sustainable building. We have invested in excellent waste water management and rain water harvesting. Our architecture and design are aimed at creating an imaginative and stimulating experience which inspires a deep sense of connection to our heritage, the community and the natural world.

### White Water Rafting Packages

We are the pioneers who developed **whitewater rafting** on Sungai Kampar in Gopeng. Sungai Kampar is great for beginner to intermediate participants with 22 rapids ranging from Grade 2 to 3. We have taken several thousand youth and corporate participants of all physical abilities and we have an exceptional safety record. We are currently in the process of getting our ISO 9001 certification. When we obtain this, we will be the only adventure company in Malaysia with such a qualification.

Nomad Adventure's rafting trips covers the longest distance giving you more river time for your Ringgit! (Our trips are 6.5 km long while most other rafting companies take out after 3 km.) Sungai Kampar is one of the only rivers in Peninsular Malaysia where whitewater rafting is viable. It is an exhilarating experience that anyone can enjoy! From the excitement of tackling large rapids, to enjoying the serene beauty of a gentle paddle through lush rainforest, this will be an invigorating day spent at one with nature.
